

Hamza Gorcevic

Serbia, Novi Pazar, 3600 | gorcevichamza76@gmail.com | [portfolio](#) | [github](#)

Skills

Frontend React, TypeScript, NextJs, Angular, MUI, Tailwind, SCSS

Backend Node, NextJs, ASP.NET, Django, FastApi

Experience

Full-Stack Developer, Tourism Software Solution – Novi Pazar, RS

Apr 2024 – Jan 2025

- Built and maintained Angular components for a tourism admin panel used to manage bookings, locations, and user data.
- Developed automated email notification system for booking confirmations and support tickets using ASP.NET and SMTP integration.
- Collaborated with backend team to integrate RESTful APIs and ensure data consistency across admin and client-facing interfaces.

Full-Stack Developer, CentarNit – Novi Pazar, RS

Jan 2023 – May 2023

- Developed a content management system for the city of Novi Pazar to manage news, public contests, and citizen issue reporting.
- Designed user interfaces with responsive layouts using React, SCSS, and MUI; ensured compatibility across mobile and desktop.
- Implemented multiple custom web scrapers using FastAPI and standard Python libraries to fetch and parse data directly from HTML tags.
- Built backend services with FastAPI for content publishing, user authentication, and report submission workflows.

Projects

GarageSpotter

garagespotter.com/projectdemo

ASP.NET Core, React, PostgreSQL, Leaflet,

- Built a web platform for locating nearby parking spots, garages, and EV chargers based on geolocation and availability.
- Implemented user registration and authentication to allow garage and charger owners to list and manage their properties.
- Integrated Google Maps and Leaflet for real-time location search, navigation, and listing previews.
- Developed admin panel to manage listings, user reports, and system metrics.

TheHive

thehive.com/projectdemo

Laravel, React, REST APIs, PostgreSQL, Leaflet

- Designed and developed a platform for beekeepers to offer and request services (e.g., bee healing, hive inspections).
- Created discussion forums and Q&A boards for community support and knowledge sharing.
- Implemented user profiles with service listings, reviews, and messaging between beekeepers and regular users.

Education

State University of Serbia – BSc in Software Engineering

Expected May 2026

CentarNit – ReactJs, JavaScript

July 2022

Stanford University, DeepLearning.AI – Machine Learning

April 2025

Hackathons

1st Place – International University in Serbia Hackathon – *Fashionly* (April 2025)

Developed a full-stack app using React, Node.js, and machine learning to recommend clothing styles based on user preferences and favorite influencers.

1st Place – State University in Serbia Hackathon – *Vesna* (April 2024)

Built an AI-powered 3D assistant to support teachers and students in scheduling, task management, and interactive learning.

2nd Place, State University in Serbia Hackathon – *Energy Saver* (May 2023)

Created app to estimate energy costs, using machine learning to suggest cost-effective alternatives.
