

Hamza Gorcevic

Serbia, Novi Pazar, 36000 | gorcevichamza76@gmail.com | [portfolio](#) | [github](#)

Skills

Frontend React, TypeScript, Next.js, Angular, MUI, Tailwind, SCSS

Backend Node.js, Express, Next.js, Django, FastAPI, Flask

AI & Automation GPT, Claude, Python, RAG, Webhooks, REST APIs, LangChain

Experience

Full-Stack Developer, Glossa (glossapro.ai) – Remote (US Startup)

Jul 2025 – Present

- Full-time remote role for an American AI startup developing Glossa, a platform that automates software migration and requirement generation.
- Worked with **Next.js** (frontend & server components) and **Node.js / Express** backend to build and maintain core product features.
- Implemented authentication and SSO with WorkOS, including custom OAuth pipelines and session handling for multi-tenant accounts.
- Developed organization onboarding, invitation, billing, and access-control systems for user management.
- Integrated Microsoft services using **Pipedream** to automate provisioning and synchronization workflows.
- Collaborated with engineers and product designers to deliver secure and scalable APIs, improving reliability and reducing support tickets.

Full-Stack Developer, Tourism Software Solution – Novi Pazar, RS

Apr 2024 – Jan 2025

- Built and maintained Angular components for a tourism admin panel to manage bookings, locations, and user data.
- Developed automated email notifications for booking confirmations and support tickets using **Node.js** backend and SMTP integration.
- Collaborated with backend team to integrate RESTful APIs and ensure data consistency across systems.
- Implemented an AI assistant (RAG architecture) that enabled agencies to upload documents and extract structured tour data.

Full-Stack Developer, CentarNit – Novi Pazar, RS

Jan 2023 – May 2023

- Developed a CMS for city news, contests, and citizen reporting using React and MUI.
- Built REST APIs with FastAPI for authentication, publishing, and content workflows.
- Created automated web-scraping scripts for news ingestion and categorization.

Projects

- **GarageSpotter** — Node.js, React, PostgreSQL, Leaflet. Platform to locate parking spots and EV chargers with user authentication and map-based management.
- **TheHive** — Laravel, React. Service platform for beekeepers featuring listings, messaging, and community forums.
- **Golem's Path** — Flask, React. RAG-based system that extracts structured data and powers a conversational chatbot for tourism content.

Education

State University of Serbia — BSc in Software Engineering (Expected May 2026)

CentarNit — ReactJS, JavaScript (Jul 2022) · Stanford / DeepLearning.AI — Machine Learning (Apr 2025)

Hackathons & Awards

- 1st Place — International University Hackathon — Fashionly (Apr 2025)
- 1st Place — State University Hackathon — Vesna (Apr 2024)
- 2nd Place — State University Hackathon — Energy Saver (May 2023)
